SUMMARY

Web & Software Developer with 1.3+ years of professional experience building responsive websites and production business applications using React, TypeScript, Laravel, PHP and MySQL. Experienced in RBAC, REST APIs, workflow automation, secure authentication and production deployment. Uses AI-assisted development professionally for faster prototyping, debugging, refactoring and code validation while maintaining hands-on responsibility for system design, testing and production reliability.

SKILLS

- Frontend : React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap.
- Backend : Laravel, PHP, REST APIs.
- Database : MySQL
- CMS : WordPress, Elementor, Shopify
- Development & Systems : Git, GitHub, RBAC, Authentication, Workflow Automation, Deployment, Performance Optimization

EXPERIENCE

ABIC

Web & Software Developer | July - 2025 to Present

- Develop and maintain WordPress and React websites across 9+ brands, including deployment, troubleshooting, maintenance and performance optimization.
- Develop production applications using React, TypeScript, Laravel, PHP, MySQL and REST APIs with RBAC, secure authentication and workflow automation.
- Built and maintain a live VOB Operations System supporting 50+ active agents and 60,000+ records through hierarchical access controls and structured workflows.
- Built and contributed to business platforms covering CRM, onboarding, finance, reporting, activity logging and secure role-based operations.

Freelance

Software Developer

- Built and deployed a production Tailor Management System covering customers, measurements, orders, automated inventory, workers, finance, reporting, RBAC, activity logging and secure access controls.

CodSoft

Front-End Development Intern | 2024

- Built responsive web interfaces using HTML, CSS, JavaScript and Bootstrap while gaining practical experience with Git and front-end development workflows.
